-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Response to Arguments***

1. Applicant's arguments with respect all claims have been considered but are moot in view of the new ground(s) of rejection.
2. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 26-28 been renumbered 30-32. Misnumbered claims were cancelled in the amendment filed 7/21/05.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

- a. Claims 30-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shank. Shank discloses a substantially flat surface where an exerciser can lie upon their back facing up (fig. 1), grip handles (28) positioned above an exerciser's head, where the handles are suspended from an inverted frame (fig. 1; 1,2,23,26) and the handles are capable of sliding (col. 2, lines 17-23) along the frame (23) freely and the body of the exerciser is capable of moving in any direction relative to the handle movement. Shank discloses all of the limitations

except for specifically outlining the steps comprising the method. It would have been obvious to one having ordinary skill in the art at the time the invention was made to perform the steps as outlined in the claimed invention since Shank provides the structure and is capable of performing the steps including lying on a back, sliding handles from side-to-side along the frame. Shank teaches in column 2, lines 23-25 that the bar 26 is adjustable to any position over the mattress, and as well the examiner interprets that since the handles slide freely over bar 26 (col. 2, line 17) that the handles are capable of swinging on the bar or in conjunction with movement of the bar in a front-to –back, diagonal or rotational motion during an exercise, or combining the movements during an exercise. An exerciser is capable of repeating the sliding motion of the handles across of the bar, or in conjunction with the bar which would enable the body of a user to be capable of moving according to the direction of the movement of the handles, an exerciser's arms, depending on length, are capable of being extended at the same length while exercising and the motion of the handles is capable of being substantially confined to a plane parallel to the surface.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
